

# ECS6: Project

## Quarto

2026-03-18

### Table of contents

#### Note

This session is scheduled to support your ongoing project work. No new material will be introduced; instead, it provides an opportunity for in-person collaboration with your group and for asking questions to the instructor.

- Instructions for the project can be found in ECS4 and ECS5.
- Please note that you will later present your project in accordance with ES2.

#### Tip

The material presented in EL10 may serve as inspiration for ideas you may wish to explore within your project, but this is optional and not required for the examination.
